

# How to use this document

All eligible Smith & Noble Cellular Shades products with Smart Shades Automation qualify for the Federal Tax Credit.

To determine if any non-motorized Smith & Noble Cellular product qualifies for the Federal Tax Credit, please follow the steps below.

- 1) Refer to the Product Qualification Reference Chart, which can be found on Page 3.
- 2) In the Product Qualification Reference Chart, if the fabric is listed as "All Qualify" then **ALL** operating systems and sizes within that product category qualify for the Federal Tax Credit. Available operating systems include Automation, Cordless, Retractable Wand and Clutch Control in standard, Top-Down/Bottom-Up and Top-Down where applicable.

If the fabric you purchased is listed as "Some Non-Qualifying", please reference the Qualifying/Non-Qualifying Size Grids, for those applicable operating systems.

- 3) Within the Qualifying/Non-Qualifying Size Grids: find the specific fabric, operating system, and size of the product. If the size of the product falls within a dark green area, the specific product configuration **DOES NOT** qualify. If the size of the product falls within a light green area, that specific product configuration qualifies.

**IMPORTANT:** Any products purchased with the following systems and design options **DO NOT QUALIFY**.

- Day/Night
- Vertical Cellular
- Skylight
- Room Darkening Side Track
- Arch Shade System
- Two-On-One Headrail
- End Mount
- Outside Mount
- Specialty; including Sidelights, Shapes, Cut-outs, Magnetic Hold Down Brackets
- Fabrics not listed on page 3.
